SMART UTILITY
Week 2026
10 – 14 March 2026, New Delhi

Digitalization Roadmaps For Utilities

Presented By

Amitabh Prasad, President-Asia, SEW.AI

India SMART UTILITY Week 2026

ISGF India Smart Grid Forum

Presented By SEW.AI

12 March, 2026

The Lalit, New Delhi

Digitalization Roadmaps For Utilities

Amitabh Prasad

President - Asia

SEW.AI

Digitalization is the Prerequisite.

Digital Transformation is the Destination.

National Electricity Policy 2026 is Creating

The Aadhaar-UPI Moment for Power

2009-2016

Aadhaar + UPI
Created Infrastructure

2016-2026

500M+

Indians became digitally bankable

Result

$1 trillion+

Digital payment economy

2009-2016

India Energy Stack +
Utility Intelligence Platform
Creating energy infrastructure

2030+

400M+

households empowered with energy intelligence

$2.4 Trillion

infrastructure investment by 2047

250M+

prosumers (solar + storage + V2G)

8.5M+

energy sector jobs (1.5% of India's workforce)

Where Utilities Are Today: A Diverse Landscape

Most Indian utilities are at different rungs of the same ladder

Digitization Stage

- Completing foundational infrastructure
- Deploying smart meters and basic IT systems
- Building core data collection capabilities

Digitalization Stage

- Integrating systems (AMI, SCADA, billing, CRM)
- Establishing unified data platforms
- Enabling cross-functional visibility

Transformation Stage

- Deploying AI and predictive analytics
- Launching Energy Advisors and customer engagement tools
- Achieving operational excellence through intelligence

NEP 2026 Mandates

Digital Infrastructure Mandates
AMI | DSO | AI/ML/IoT | SCADA/EMS | PMU/WAMS | EVs & V2G

Consumer Centricity
24×7 Supply | Mobile-Based Experience | Periodic Consumer Satisfaction Survey | AI Bots & Agents

Operational Transformation
SAIDI | SAIFI | CAIDI | Single Digit AT&C | Cybersecurity

Prosumer Empowerment
Aggregator Frameworks | ToU | Demand Response | P2P Trading | DERs | DERMs

Implementation Barriers

Legacy Systems
Fragmented IT/OT | Vendor silos | No interoperability | 20-yr billing systems

Fragmented Customer Operations
Disconnected Channels | Data Silos | Manual Process | Inconsistent CX

Financial Consideration
Losses + debt | 15-20% AT&C losses | Cross-subsidy | High Capex | Unsecured IoT endpoints

Grid Visibility & Control Gaps
Limited AMI Penetrations | Grid Blind-spots & Visibility | Lack of DERMS Orchestration | Behind-the-meter Visibility

From Systems on Islands to a World of Connected Experience

The 3-Pillar Framework for Utility Transformation

360°

Customer Intelligence

360°

Grid Intelligence

360°

Workforce Intelligence

Build the Right Technology Backbone

Vertical AI

+

Platformization

Vertical AI Operating System

Unified Platform Architecture

The Phased Approach

1

Digital Foundation (1-2 years)

- Deploy unified data fabric
- Enable MDM with 15-min interval capability
- Vertical AI Advisors & Agent for Customer Engagement
- Baseline cybersecurity

2

Operational Excellence (2-5 years)

- Integrate with India Energy Stack for DPI interoperability
- Predictive models: theft detection, demand forecasting, asset health
- Enable DSO capabilities for DER coordination
- Deploy Digital Twin for grid simulation
- Scale AI Agents across workforce operations

3

Innovation & Customer Focus (5+ years)

- Operationalize P2P trading and aggregator frameworks
- Scale prosumer engagement (solar + storage + V2G)
- Single-digit AT&C through predictive operations
- Autonomous grid operations

De-Risk Transformation

By

Partnership with Technology Experts

When India Built World-Class Infrastructure, It Was Never "Go It Alone"

Result

Fintech Transformation

$1 trillion digital payment economy in 10 years

Government DPI

NPCI built UPI rails

+

Private Innovation

PhonePe, Paytm, GooglePay

Digital Identity

1.4 billion Indians digitally identified, enabling 500+ services

Government Infrastructure

UIDAI created Aadhaar

+

Ecosystem Partners

Banks, telcos, fintechs integrated authentication

Telecom Revolution

850M+ internet users, data costs dropped 95%

Government Policy

Spectrum allocation, Digital India mission

+

Private Investment

Jio, Airtel, Vi deployed 4G/5G networks

The Energy Sector Equation

Government Foundation

- India Energy Stack,
- NEP 2026 mandates,
- Regulatory support

+

Technology Expertise

- Vertical AI platforms
- Global best practices & proven frameworks

+

Utility Expertise

- Utility Patrons with decades of experties

=

$2.4 trillion

Infrastructure investment by 2047

250M+

Prosumers (solar + storage + V2G)

Single-digit

AT&Cs

Energy Security
